

Ways to wear Maternallove's Convertible Nursing Dress

	<p><b>Kimono</b></p> <ul style="list-style-type: none"> <li>▶ Start with the top of the dress under your bust and the straps hanging down in front</li> <li>▶ Lift the straps up and over your shoulders. Adjust the straps so that they lie flat and hang over the sides of your shoulders to form kimono-style sleeves</li> <li>▶ Cross the straps at the back and bring them around your waist</li> <li>▶ Tie the straps at the front or back</li> <li>▶ To nurse, pull aside the two straps to access nursing openings hidden in the tube top underlayer</li> </ul>
	<p><b>One shoulder</b></p> <ul style="list-style-type: none"> <li>▶ Start with the top of the dress under your bust and the straps hanging down in front</li> <li>▶ Lift the right strap over the right side of your shoulder. Lift the left strap across your neck and over your right shoulder</li> <li>▶ Make sure the straps overlap your bust so that no keyhole can be seen</li> <li>▶ Take one strap straight down your back and the other across your back</li> <li>▶ Bring the straps around the front of your waist and back again</li> <li>▶ Tie at straps at the back</li> <li>▶ To nurse, pull aside the two straps to access nursing openings hidden in the tube top underlayer</li> </ul>

#### Twist front halter

- ▶ Start with the top of the dress under your bust and the straps hanging down in front
- ▶ Lift both straps diagonally over your shoulders to create a twist front halter.
- ▶ Make sure the straps overlap your bust so that no keyhole can be seen
- ▶ Cross the straps at your back and wrap them around your waist
- ▶ Tie the straps at the back or front
- ▶ To nurse, push aside the straps to access nursing openings hidden in the tube top underlayer

#### Sleeveless

- ▶ Start with the top of the dress under your bust and the straps hanging down in front
- ▶ Lift the straps up and over your shoulders to create a sleeveless silhouette. Bring the straps straight down your back and wrap them around your waist
- ▶ Tie at the back or front
- ▶ To nurse, pull aside the two straps to access nursing openings hidden in the tube top underlayer

### Cap sleeve

- ▶ Start with the top of the dress under your bust and the straps hanging down in front
- ▶ Lift the straps up and over your shoulders. Adjust the straps so that they lie flat and tuck the edges under to form cap sleeves
- ▶ Cross the straps at the back and bring them around your waist
- ▶ Tie the straps at the front or back
- ▶ To nurse, pull aside the two straps to access nursing openings hidden in the tube top underlayer

### Grecian

- ▶ Start with the top of the dress under your bust and the straps hanging down in front
- ▶ Lift the straps up and over your shoulders. Adjust the straps so that they form some ruching at the top of the shoulders.
- ▶ Cross the straps at the back and bring them around your waist
- ▶ Tie the straps at the front or back
- ▶ To nurse, pull aside the two straps to access nursing openings hidden in the tube top underlayer

## Strapless

- ▶ Start with the top of the dress under your bust and the straps hanging down in front
- ▶ Cross both straps under your bust and bring them round to the back
- ▶ Wrap the straps around your body and tie in the front or back
- ▶ To nurse, pull down the straps to access nursing openings hidden in the tube top underlayer

## Halter

- ▶ Start with the top of the dress under your bust and the straps hanging down in front
- ▶ Lift the straps up and around your neck to create a halter
- ▶ Knot the straps behind your neck and create a braid down your back
- ▶ Wrap the straps around your waist and tie at the back or front
- ▶ To nurse, pull aside the two straps to access nursing openings hidden in the tube top underlayer

#### Butterfly sleeve

- ▶ Start with the top of the dress under your bust and the straps hanging down in front
- ▶ Lift the straps up and over your shoulders. Adjust the straps so that they lie flat and pull them down over the sides of your shoulders to form wide butterfly style sleeves
- ▶ Cross the straps at the back and bring them around your waist
- ▶ Tie the straps at the front or back
- ▶ To nurse, pull aside the two straps to access nursing openings hidden in the tube top underlayer

#### Criss cross front

- ▶ Start with the top of the dress under your bust and the straps hanging down in front
- ▶ Lift both straps diagonally over your shoulders. Adjust and pull the straps wide to make sure they overlap your bust and so that no keyhole can be seen.
- ▶ To nurse, push aside the straps to access nursing openings hidden in the tube top underlayer
